

# ALLAN<sup>EST 1811</sup>BROS.

Craftsmen of Timber Windows & Doors

## Timber Window & Door Collection

# Crafting in timber since 1811

Allan Bros: The longest established window company in the UK, with unparalleled expertise in timber craftsmanship.

## Generations of timber craftsmanship

Tradition is important to us and while much has changed in the industry, our love of hand-crafted excellence has endured. Combining centuries-old methods with the latest modern technology, we're able to produce solid, high quality timber windows and doors that will last for decades.

“ Over 200 years of British craftsmanship ”

## Hand-made windows and doors

Using time-honoured processes and methods, we're able to consistently manufacture quality timber casements and vertical sliding sash windows. In addition we also offer single, double and bi-folding doors and a range of aluminium clad systems.

# Expertise you can rely on

On any given day, the factory at Berwick-upon-Tweed will contain 1,295 years of specialist experience.

## People, History, Heritage

James and Thomas Allan began their apprenticeship in wood craftsmanship more than 200 years ago, eventually taking over the company from their father, William, when he passed away in 1843.

Their passion for creating the very best in timber windows saw them steadily expand the Berwick factory until it covered an impressive 8 acres. And, like the knots and grain of a good piece of timber, that passion and dedication runs through everything we do today, revealing the story of our heritage through unparalleled quality.

## Peace of mind

Allan Bros' timber products are designed to look great for years to come. Research has shown that, even with low levels of maintenance, they should last at least 60 years; and with more regular care, can last up to 80 years or more.

“Total peace of mind with timber guaranteed for decades”

The mark of responsible forestry

## Sustainable Timber

All of the Redwood timber we use is sourced from certified Forest Stewardship Council® (FSC®) forests in Northern Scandinavia; so you can rest assured that our products have come from a sustainable and responsibly managed source.

Our windows are carbon neutral, meaning that they absorb more CO<sub>2</sub> from the atmosphere than they produce.

## Our Window Range

Our range of high-performance timber windows combine traditional craftsmanship with the highest levels of performance.

As standard, our fully glazed windows are supplied with multi-point locking and easy clean hinges, factory-finished in a choice of 10 colours or 5 wood stains - or upgrade to any RAL colour.

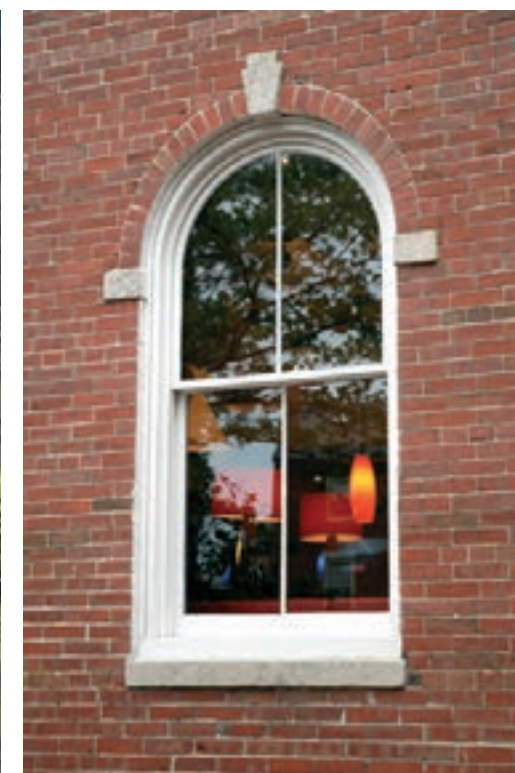

### An extensive range to meet your needs

We produce Flush and Stormproof Timber Casements, in addition to Vertical Sliding Sash and Vertical Slide & Tilt variations.

For modern projects, our Aluminium Clad window range, comprising IV-UNI Tilt & Turn, Horizontal, and Delta Combi styles, offers reduced maintenance and an even longer service life.

Our windows are rigorously tested to the latest European and British safety and performance standards, accredited by independent third parties and Secured by Design.

“Available in a range of classical and contemporary styles and designs”

# Flush Casements

For elegant, sleek design, our Flush Casement Windows are a masterclass in simplicity, with a timeless aesthetic that speaks for itself.

Combining the effortless style of traditional flush casement design with the precision afforded by modern technology, our latest range of Timber Flush Casement Windows are not only practical; they're beautiful.

## Beautiful, Practical, Versatile

Our Flush Casements offer various modes of operation, based on a flush finish between the timber frame and window. We boast a wide range of attractive styles and finishes, all made to measure from natural softwood timber.

This range was created for conservation areas with strict planning regulations; so it's made to meet your needs, whilst complying with the latest building regulations.

“Approved for use in conservation areas”

# Stormproof Casements

Strong and stylish, with outstanding energy performance and security credentials, our Timber Stormproof Casement Windows will hold fast, whatever the weather.

We offer many styles and finishes, from ultra-modern to classical - all hand-made from superior natural timber. Hung on friction hinges and with a decorative internal moulding on both sash and frame, this range offers quality, strength and a timeless design.

## Available with decorative glazing bars

Our high-performance Stormproof Casement Windows are available as side-hung or top-hung, with the option of glazing bars for a touch of elegance.

With or without glazing bars, our superior styling speaks for itself, displaying a level of quality and craftsmanship that's more than a match for the infamous British weather.

“Traditional looks with superb weather performance”

# System 2000

Flush sash Scandinavian-style windows for a beautifully understated, truly contemporary look.

System 2000 is a tried-and-tested range of popular flush casement windows with three operating modes including fully reversible for easy cleaning', allowing greater flexibility, and a range of styles for impressive levels of design customisability.

## No need to compromise

By offering a choice of hinges, this system allows for multi-compartment frames, incorporating different options without compromising the integrity of the building.

Of course, practicality is not our only concern, which is why we offer designs ranging from ultra-modern to classical, all made-to-measure from superior natural timbers.

“ Contemporary styles, enhancing any building ”

## The 1811 Sliding Sash Collection

For unmistakable period charm, nothing compares to The 1811 Sliding Sash Collection.

### For properties of historical character

Our Vertical Sliding Sash Windows are available in a choice of three operating systems: the authentic, traditional Cords and Weights mechanism; Spiral Balance, for a modern twist; and the highly versatile Slide and Tilt.

As standard, our finely crafted sliding sashes are externally or internally beaded according to preference. Additionally, you can opt for a simulated putty profile on the exterior.

We always strive to create the best possible solution for each and every customer, which is why we offer optional arched frames and decoration bars; four different types of horn; and extensive hardware options.

### Fulfil conservation requirements

For those customers with specific conservation requirements, we also offer an alternative specification with 134mm frame depth, solid bars and slim 14mm double glazed units.

“Add charm to any building”

# The 1811 Sliding Sash Collection

## Cords and Weights

### Add charm to any building

Used extensively in Britain since the seventeenth century, sash windows can add charm to any building, old or new. Achieve a truly stunning classical effect with a window operated by cords & weights.

The sashes slide up and down using traditional pulleys with heavy duty cords and weights. Simplex fittings can be fitted to the bottom sash, allowing it to open on butterfly hinges to facilitate cleaning.

### Sizes / Dimensions

Frame Depth.....	160
Frame Head .....	56x160
Frame Jamb .....	110x160

Stiles.....	58x58
Bottom Rail.....	68x58
Optional Horns.....	4 Options

Conservation Option - 134mm frame depth available

## Spiral Balance

### Ideal for smaller reveals

Combining period style with modern technology, spiral balance sash windows are great because they can be fitted into smaller reveals.

The sashes slide by means of partially hidden pre-tensioned springs, with a smooth, easy-to-use mechanism that's simply a joy to operate!

Stiles.....	58x58
Bottom Rail.....	68x58
Optional Horns.....	4 Options

Conservation Option - 134mm frame depth available

## Slide and Tilt

### Safe and easy cleaning

As with Spiral Balance, Slide and Tilt Sash Windows operate via pre-tensioned springs, but with the additional function of tilting inwards, to facilitate safe cleaning and maintenance.

With Slide and Tilt, classical style meets modern practicality to stunning effect.

# Our Door Range

Timber Doors boasting truly outstanding weather performance and high-security credentials, available in a range of traditional and contemporary designs.

## Quality and durability that only timber can provide

From Timber Scotdoors and French Doors to Patio Sliding and Bi-folding configurations, our range of timber doors are hand-crafted without compromise. Using the highest quality Engineered Redwood, we create high-performance, beautiful entrances that always add a touch of class.

Constructed to the same exacting standards as our windows, with timber guaranteed for decades, our door sets incorporate a host of technical innovations for absolute peace of mind. Our high-specification doors are also available 'Secured by Design'.

## Something for everyone

Allan Bros' stunning contemporary timber doors are available in a range of styles and sizes to meet your every need. Our Scotdoor range alone comprises of 27 different designs and all our door ranges are available in any RAL colour, so there's something for everyone!

“To make a grand entrance,  
nothing but timber will do”

# The Scotdoor Collection

The Scotdoor is the result of over 200 years’ experience in the joinery industry culminating in the ultimate entrance door.

With 27 door designs to suit all needs and decorative glass options to choose from. Combined with excellent Thermal and Security performance, the Scotdoor is perfect for New Build and Renovation projects.

## Traditional and contemporary designs

Combining tried and tested Scandinavian technology with traditional British styling, Scotdoors give exceptional performance against the weather and a high level of resistance to forced entry.

Manufactured to the highest standards using high-end CNC equipment to achieve the exact design and sizes requested, the composite door slabs and timber frames are made-to-measure and built to your specification. Using one of the leading coating systems in the industry, our doors are supplied fully factory-finished, allowing us to offer market leading warranties.

Supplied fully assembled, including frame, door, glazing, locks and handles, allowing for quick, easy installation. The Scotdoor range is available with PAS24:2016 certification and is registered with ‘Secured By Design’.

“ Perfect for New Build and Renovation projects ”

### Door Construction

- Extruded polystyrene rigid foam insulation plate (XPS)
- Vertical veneer
- Aluminium stabilising sheet, security and moisture barrier
- Vertical veneer
- Horizontal veneer
- 1.5 mm quarter cut veneer for appearance and durability

The composite door has a bonded sandwich construction providing a high degree of stability, with the aluminium plates acting as an effective moisture barrier. The insulating core gives an exceptional U-Value as low as 0.95W/m2k.

# Scotdoor Colour Options

## Standard Colours

Alternative RAL colours available on request.

Skye 1 in chartwell green with dorchester glass

## Skye 1

The Skye Door provides elegance and simplicity, with a range of glass that exudes quality whilst retaining a classic look and feel of a dual-glazed door.

### Featured Glass: Dorchester

Genuine coloured Spectrum Glass with blackened lead combine to create this stunning leadlight design, reminiscent of the Victorian era. Using multi-patented 'Future Unit' technology, you can now have all the benefits of traditional leadlights, with the performance and thermal properties you would expect in a Scotdoor.

Skye 1 in agate grey with caledonia rose glass

Skye 1 in anthracite grey with kensington glass

Skye 1 in beige grey with simplicity glass

Skye 1 in red with red diamonds glass

Harris 1 in beige grey with caledonian rose glass

## Harris 1

The Harris Door allows the classic half-glazed option with a traditional panel effect. The elegant glass designs available truly add to the design, bringing privacy and security to your home.

### Featured Glass: Caledonian Rose

A masterful floral design, inspired by the work of Charles Rennie Mackintosh, the famous Glaswegian architect. The subtle stippled texture of Mackintosh's famous rose motifs contrast with the etched glass surround, creating a design that is an eye-catching enhancement for any home.

“Create a unique, stunning entrance to any home”

## Bi-Folding Doors

Bi-folding doors are a sure-fire way to elevate any living space – open, shut, or somewhere in between, they never fail to impress.

### Made-to-measure to suit your needs

For the ultimate in beautiful, high-performance design, Allan Bros Timber Bi-fold Doors are second to none. Our bi-folds are highly secure, superbly insulated and meet the requirements of Secure by Design.

Available in a wide range of configurations and optional extras, our bi-folds will enhance any room, completely transforming both interior and exterior design.

### Expand your living space in an instant

Nothing beats the real thing and engineered timber is the material that always delivers on quality for your bi-fold doors. Add to that our years of expertise and craftsmanship, and you'll be amazed by the effect we can create.

For saving space and opening up the room, bi-fold doors are an elegant and impactful solution, illuminating any living space and creating an indisputable wow factor!

“Open up any room and create an unmistakable wow factor”

## Patio Sliding Doors

Excellent weather performance with a range of combinations and flexible features.

### Versatile for use in domestic and commercial applications

Perfect for large openings that demand unbroken sight-lines, our patio sliding doors are available in a wide range of sizes with high thermal insulation and security locking.

Smooth operation of the large panes is assured by lowering the rollers to lift the door off its seals, allowing it to slide back with ease. Frames are supplied pre-assembled and beautifully finished in a choice of factory paints, stains or choose from any RAL colour for that personal touch.

“Large, panoramic, unbroken sightlines”

# Alu-Clad Timber

Aluminium Clad Timber Windows and Doors - a highly durable, low-maintenance, versatile solution for domestic and commercial applications.

With aluminium clad timber, the added layer of protection and finish allows windows and doors to withstand even the most severe conditions.

## Exceptionally insulated windows and doors

Allan Bros. offer three product ranges in Alu-Clad Timber: Tilt and Turn, Flush Casement and a selection of Alu-Clad doors; each designed to fit specific requirements.

All of our Alu-Clad products achieve outstanding thermal performance, with a number of triple-glazed products reaching U-values below 1W/m2k.

The external aluminium cladding minimises the amount of maintenance required, making Alu-Clad Timber Windows the ultimate hassle-free solution for a wide range of applications!

“ The benefits of timber with even greater durability and insulation ”

Gracewell of Bookham Care Home

## Alu-Clad Tilt and Turn

Inward-opening, with strong, durable external aluminium cladding, our Alu-Clad Tilt and Turn Windows have an outstanding life expectancy and low maintenance costs, resulting in long term added value.

This range is available Secured By Design and boasts a wide range of optional extras to enhance its performance.

### Specification

- ✓ Engineered (laminated) timber profiles
- ✓ Pine or Oak
- ✓ Factory applied paint or stain finish
- ✓ Tilt & Turn, tilt only or turn only - all inward opening
- ✓ Circumferential fittings with micro-ventilation and anti-burglar catch
- ✓ Factory fitted 24mm double glazing or 40mm triple glazing
- ✓ Internally beaded
- ✓ Overall U-value of (approx.) 1.2W/m<sup>2</sup>K - double glazed or 0.9W/m<sup>2</sup>K - triple glazed
- ✓ Shaped opening windows possible
- ✓ Durable external aluminium cladding
- ✓ PAS24 option available

## Alu-Clad Flush Casement

Allan Brothers' outward-opening Alu-Clad Flush Casement Windows have the versatility of fully-reversible, side and top swing windows for easy maintenance and cleaning.

The internal timber comes as square-edged, or Softline, as standard and we offer a Classic option for a slightly moulded, decorative finish. This range is characterised by its clean, straight-edged timber frames and external aluminium cladding.

### Specification

- ✓ Engineered (laminated) timber profiles
- ✓ Pine, Oak or Larch timber with external aluminium cladding
- ✓ Factory applied paint or stain internally
- ✓ Polyester Powder Coated (PPC) aluminium
- ✓ Casement and reversible hinges
- ✓ All multi-point locking
- ✓ Modern square profile - Softline
- ✓ Traditional moulded profile - Classic
- ✓ Factory fitted double or triple glazing
- ✓ Double glazed with overall U-value of approx 1.34W/m<sup>2</sup>K
- ✓ Triple glazed with overall U-value of approx 0.92W/m<sup>2</sup>K
- ✓ Externally beaded, drained and ventilated
- ✓ PAS24 option available

## Alu-Clad Doors

Our Alu-Clad Door range is a high-performance system, with a wide range of optional features tailored to your needs.

# InwidoHome Smart Products

Optimise your home with the Inwido range of exciting Smart Home features and solutions.

## Enhance the everyday

Using the INWIDOHme App to connect with compatible Smart Products, customers can make their home life more comfortable with a range of features designed to improve their day-to-day life.

With products designed to guarantee peace of mind when leaving home, or enhance the time you spend indoors, our Smart Products offer benefits you will feel every day of your life.

And with more compatible products lined up for the future, our Home App and range of cutting edge Smart Products will continue to lead the way in Smart Home technology for years to come.

# Smart Products Overview

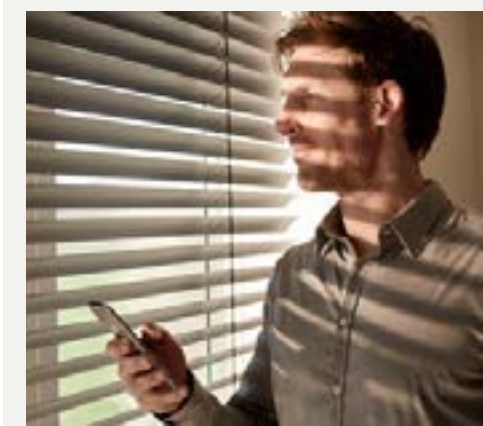

Inwido are committed to ‘Enhancing your Wellbeing’ via the introduction of Smart technology to our products and accessories.

## Current Smart Products:

- ✓ Copenhagen Blinds
- ✓ Yale Conexis Door Lock
- ✓ Smart Window Handle
- ✓ Open / Closed Sensor
- ✓ Climate Sensor
- ✓ Power Plug
- ✓ Danfoss Thermostat
- ✓ Light Sensor
- ✓ Wall Controller

## In Development:

- ✓ Integrated Door Locks
- ✓ Window Security Sensors
- ✓ Linked Alarm Security Systems

## Copenhagen Blinds

Easy to fit and featuring superior light-blocking capability, our made-to-order Copenhagen Blinds re-invent the way that blinds work, taking the stress out of leaving your home unoccupied for long periods of time.

Program your blinds to follow your daily rhythm by opening and closing automatically or simply login via the app to take control.

## Smart Window Handle

With the ability to recognise if the window or door is open or shut, and whether it's locked, the Smart Window Handle is always there for you when you leave the house - check the app, and put your mind at ease.

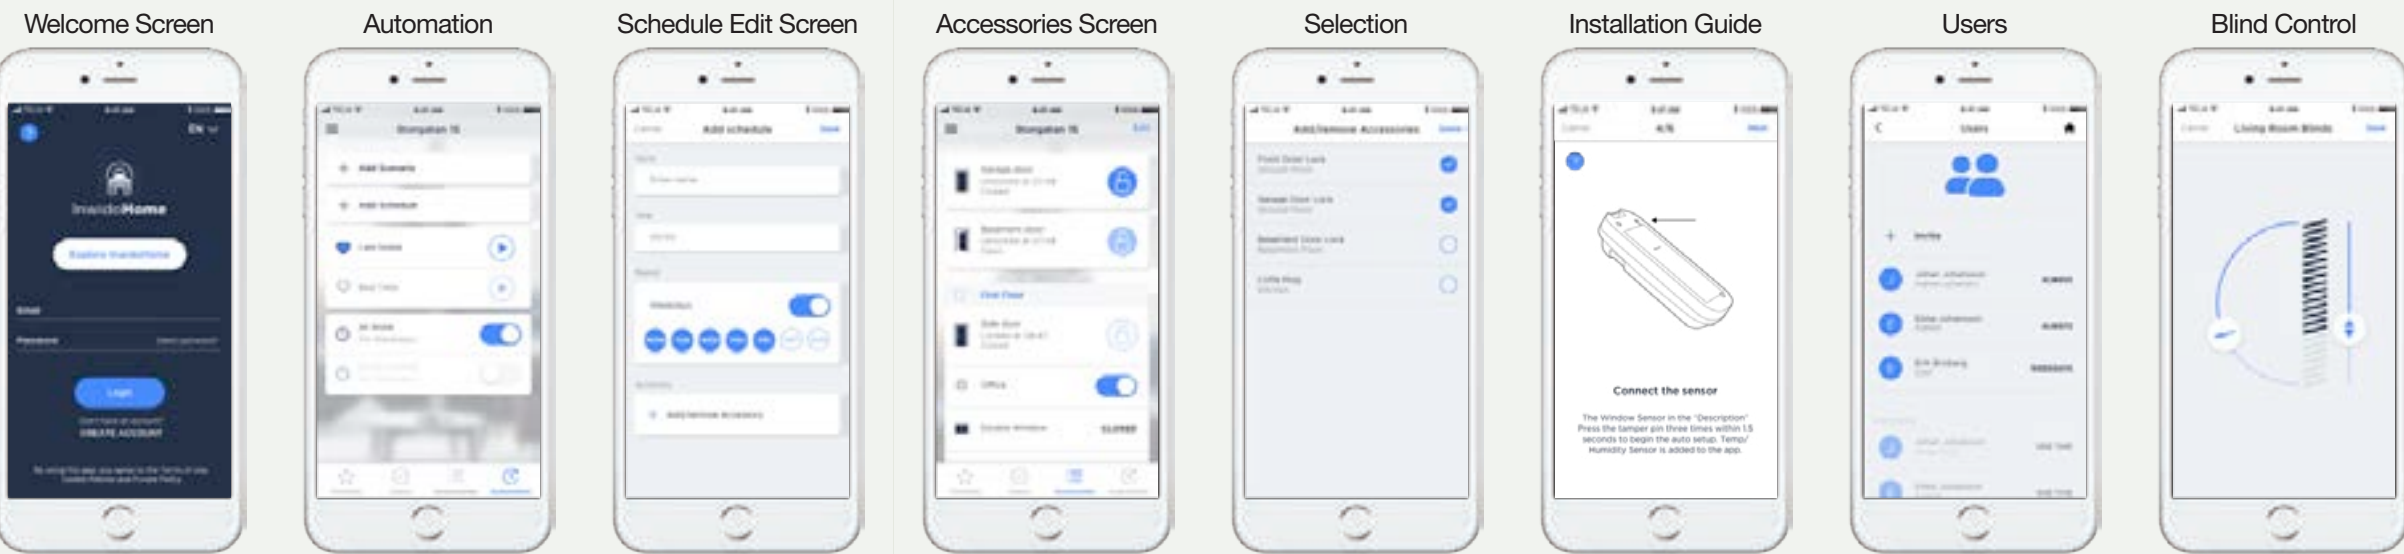

“Smart homes are no longer the stuff of science fiction”

# InwidoHome User Interface

Available on iOS and Android with an easy-to-use interface

## The ‘Choices’ Brand

At Allan Bros, we’re passionate about timber windows and doors, but we also believe in Choices for our customers.

As part of the Inwido Group, we are able to offer a comprehensive range of products, in collaboration with our sister company, CWG Choices.

### ‘Choices’ PVCU

The ‘Choices’ Alternative to Timber collection is a PVCU range including: traditional casements, fully reversibles, vertical sliding sash windows, single, double, patio sliding and bi-fold doors; all available in a number of colour and woodgrain finishes that look and feel just like timber.

### ‘Choices’ Aluminium

Slimline aluminium windows are the perfect replacement for traditional steel; and with a number of aluminium residential, commercial, bi-fold and inline sliding doors, our selection of products is staggeringly diverse.

### Hassle-free, all-in-one service

We even provide complete conservatories and orangeries, with a hassle-free, all-in-one service from our expert team!

“ Innovative and versatile solutions for any application ”

# ‘Choices’ PVCU Windows

Our PVCU Windows are available in a range of designs, styles and colour finishes, with a collection made to replicate the look of traditional timber windows.

You can let your imagination run wild with our all-encompassing selection of PVCU windows. We have so many variations, if you can think of it, we can make it possible, and you can rest assured that all of our products are built to the highest standards.

## Designed to look like timber

‘Legacy’ and ‘Flush 70’ are cost-effective 70mm casement windows, available ‘A’ energy rated with high-security locking. With sculptured outer frames and arrissed joints, they replicate the look of traditional timber windows.

The Residence Collection takes PVCU design and performance even further, with ‘R7’ and ‘R9’ designed specifically to look like 19th century timber windows. Both have flush sashes and are almost indistinguishable from timber. R7 features a 7-chambered profile for strength and thermal efficiency, while the superior R9, with 9 chambers and a 100mm frame, is the ideal replacement when updating original timber windows with PVCU.

‘Choices’ Heritage vertical sliders are designed to incorporate all the traditional features of authentic sash windows with detailing to the sash horns, deep bottom rail, and slim interlock, but with the additional benefits of modern PVCU.

“ Superb performance  
throughout the whole range ”

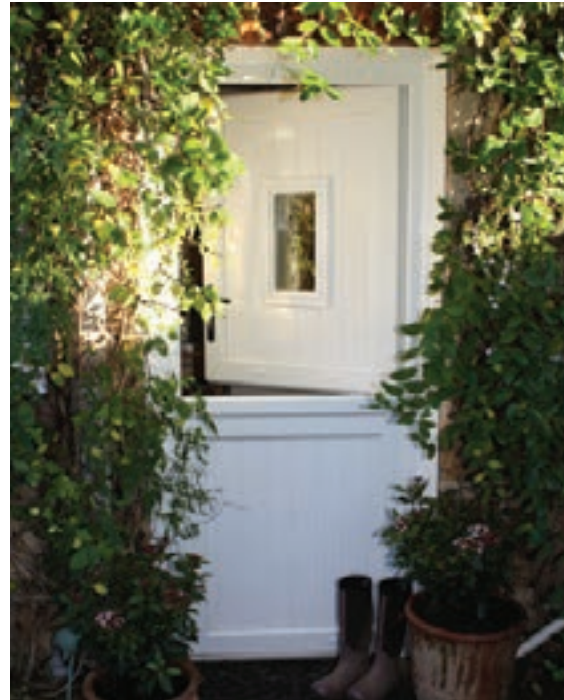

The *Choices* brand

## ‘Choices’ PVCU Doors

Incredible versatility from our exhaustive range of durable, stylish PVCU doors, available in single, double, sliding and bi-folding options.

### The kerbside appearance of timber

The ‘Imagine’ range encompasses single, double and bi-folding doors with traditional styling that combines the best of both worlds – rigidity to rival aluminium and the appearance of timber – with all the benefits of PVCU.

With patio sliders and bi-folding doors available up to 6m wide, the attention to detail in design, security and thermal performance all combine to make it a truly innovative way to transform any room.

### Composite doors for the best of both worlds

The ‘Choices’ Composite door range consists of timber-effect doors with all the functional benefits of modern materials. Fitted with high-security Ultion locking, our durable Composite doors provide excellent security, a strong thermal barrier and outstanding acoustic performance as standard.

Available in a wide range of colour woodgrain-effect finishes, with options for hardware, side panels and french door combinations.

“A versatile range –  
designed to impress,  
built to last”

## ‘Choices’ Aluminium Windows

Sleek, stylish and extremely robust, Aluminium Windows offer slim sightlines and great customisability.

### Long-lasting, strong, and energy-efficient

Our residential and commercial aluminium windows encompass a selection of casements, shapes and gables, slimline steel replacements, horizontal sliders and tilt and turns for all kinds of projects.

The standard specification Aluminium Casement Window can be purchased from stock, allowing for a quick turnaround; while the ‘Advanced Plus’ allows for two frame depths, three frame heights, and four sash options, all ‘A’ rated for energy saving – the first aluminium system in the UK to achieve this with a double-glazed unit.

### The perfect replacement for traditional steel windows

The Alitherm ‘Heritage’ is our slimmest window, and features signature slim sightlines and attractive contours. Designed to replace traditional steel windows, it is so similar in look as to be almost indistinguishable, but with vastly improved performance over the long-term.

“ Slim sightlines, with high performance that’s second-to-none ”

## ‘Choices’ Aluminium Doors

Residential and commercial aluminium doors for slim sightlines, flawless style, and specific functionality that isn't offered by timber or PVCU.

### Slim sightlines let in more sunlight

One of the best things about an aluminium door is how much it illuminates the room, thanks to slimmer sightlines. This makes it the perfect choice for any number of commercial applications, such as reception areas, where creating a light and welcoming space is absolutely key.

That also applies to many living spaces, and with our range of single, double, and inline sliding residential aluminium doors offering enhanced security options and great energy ratings, sometimes, only aluminium will do!

### Looks that defy gravity with Floating Corner Posts

The 'Choices' range includes floating corner posts, delivering aesthetics that can't be ignored, and bi-folds of up to 6.3m width for an incredible open space, replacing entire walls to create beautiful uninterrupted views.

“ You have to dream big  
to create amazing spaces ”

## K-Club Ireland

The K Club Palmer Course was the first ever Irish venue to be selected to host the world-renowned Ryder Cup.

Allan Bros successfully manufactured and supplied this magnificent building with over 120 Sliding Sash windows which exceeded our client's expectations and are a key feature to this stunning venue.

# Gracewell of Bookham Care Home

The development involved the demolition of the former Preston Cross Hotel which contained elements dating from the late 19th Century.

This newly constructed care home required a mix of timber and aluminium clad windows and doors to help give it a high quality finish

With the combination of traditional sliding sash and aluminium clad casements, the finished project resulted in a modern feel with a classic twist.'

*Gracewell of Bookham Care Home*

# Large Modern Home

Set in Northumberland, these two stunning dwellings really are one for the portfolio!

With these properties being unique and bespoke, our returning client wanted a quality assured product to match their vision.

After numerous meetings and product presentations, the customer opted for our high performance Flush casement from our Alu-Clad range along with a Pine wood Alu-Clad Sliding Door and Entrance Door.

Finished externally in RAL 7016 Anthracite Grey, the windows compliment the building facings. Opting for a dual finish, RAL 9010 Pure White was the colour of choice internally.
